Dixon went to Fayetteville this morning in the stoad of Governor Glenn to deliver the address for the closing of the graded schools there to-night, Governor Glenn was prevented from filling the engagement by the unexpected arrival of his brother, Mr. E. Deliver An Address.

Governor Glenn will go to Asheville Wednesday to deliver the address of welcome for the Association of Cotton Manufacturers of the United 5.ates and many from England as well. He will also address the association in the stead of Senator Lodge, of Massachusetts, who is unable to fill his engagement. The Governor said this morning that he will appeal to the association for a closer alliance with the cotton growers in order that fair prices may be assured, and also for united action for the extension of the cotton market. He says he will lay down the proposition without fear of contradiction that whether the constitution follows the flog or the flag the constitution, it is certainly an established fact that clothing goes hand in hand with civilization and Christianity.

MISS FAY PLEASES A LARGE AUDIENCE

Bijou Audience Delighted With Offering This Week-Talented Child in the Play.

The purifying action and curative properties of this great remedy have made "S. S. S. For The Blood" a household saying, and thousands who are today enjoying perfect health owe their recovery from blood or skin diseases to this universally used blood medicine. S. S. S. is made entirely from roots, herbs and barks which possess not only cleansing and healing ingredients, but building up and strengthening properties to keep the blood in perfect order. No one can be well when the blood is impure; they lack the energy and strength that is natural with health, the complexion becomes pale and sallow, the vitality is weakened and they suffer from a general broken down condition. When the waste or refuse matter, which nature intends shall be thrown off, is left in the system because of a sluggish, torpid condition of the expelling members, it is absorbed into the blood, making this vital stream weak, sour and acrid, and its condition is manifested by boils, pimples, rashes, blotches and other cruptions of mineral strength of the skin. S. S. S. goes into the circulation and removes every particle of blood taint or poison of every character, makes the blood fresh and strong and gives energy to the entire body. When the blood has been cleansed by S. S. S. all skin diseases and eruptions pass away and the smooth, clear skin, glowing with health, shows that the body is being nourished by rich, pure blood. Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders, and for their cure nothing equals S. S. It does not injuriously affect the most delicate parts of the body and can be taken with perfect safety by old or young. Book on the blood and any medical advice desired without charge.
